

Millennium

The Most Powerful Payroll Processing Solution

About Millennium

Scalable and user-friendly, Millennium processes large payroll loads with ease. Our PC solution provides the functionality of the most expensive in-house payroll systems, yet is extremely flexible, fast, and easy to use. Millennium boasts exceptional user features at your fingertips.

- Simple Windows Navigation
- View Gross-to-Net as You Key Payroll
- Pre-processing Register
- Time Clock Interface
- Security Features
- Time-off Tracking
- Pay History
- View Prior Checks
- Check Calculator

Process Payroll in a Few Easy Steps

1. Verify check date
2. Enter payroll data or import files
3. Verify Totals
4. Submit for processing

Payroll Without Limits

Designed with both payroll and HR departments in mind, Millennium allows access to over twenty pages of employee information. Companies can define a virtually limitless number of earning and deduction types. No limit to employee or company data.
