

Millennium

The Most Powerful Payroll Processing Solution

Manage Payroll Processing With Ease

With Millennium, you can process payroll in a few easy steps - we handle the rest.

- Conserve time. Payroll is handled quickly with our user-friendly, easy-to-operate system.
- Process payroll accurately. View payroll information before it is processed with our pre-processing register.
- Know your payroll expense. With instant calculation of wages, taxes, and deductions, estimating your total payroll expense is easy.

Stay Focused on Your Business

Get the most out of your workday by staying focused on your core business.

- Get employees paid. Don't spend your entire payday tracking down employees. An unlimited number of direct deposits can be set up for employees to receive their pay directly into their bank accounts.
- Stay "tax smart" with date sensitive and up-to-date tax tables contained within Millennium.

About Millennium

Scalable and user-friendly, our PC solution provides the functionality of the most expensive in-house payroll systems, yet is extremely flexible, fast, and easy to use. Backed by audited processes, Millennium ensures your confidential employee and payroll data are protected.

Manage Your Human Resources

Designed with both payroll and HR departments in mind, Millennium allows access to over twenty pages of employee information.

- Manage employees' vacation, sick, and other time off with accrual tracking
- Track important employee data; such as, education levels, dependents, emergency contacts, union affiliation, reviews, insurance coverage, EEOC classification, and more
- View employees' past compensation by check date or desired date range

Get the Most out of Your Payroll System

Millennium boasts exceptional, easy-to-use features and functionality.

- Calculate impromptu manual checks with an internal check calculator
- Access payroll data on-demand with over 60 standard reports
- Provide key personnel (internal or external) with payroll data via multiple output options
- Extract data in multiple formats based on your unique business needs (general ledger, etc.)
