

TimeForce

Collect, Manage, and Process Time More Effectively

Today's Time and Labor Management Solution

TimeForce is a comprehensive software solution that will streamline your company's operations, simplify timekeeping, and save you money. This solution is one of the most state-of-the-art methods of time management for today's businesses.

Move beyond outdated time clocks and employee time and attendance formats by embracing an easy-to-use system that can positively affect all of your human resource needs.

This web-based solution can help you more effectively manage payroll and time and attendance, helping you get the most out of your workday.

Simplify Timekeeping and Payroll

- Efficiently collect employee time with multiple time collection methods including web-based options or hardware
- Apply real-time management with a supervisor dashboard, effectively keeping track of employee time.
- Immediately access employee data online, including time-off requests and timecard approvals.
- Get single-sign-on access and eliminate dual employee entry with seamless integration between timekeeping and Payentry.com

Exceptional Features

- Multiple clock options including wall-mount, proximity reader, biometric and more
- Employee self service
- Extensive reporting
- Scheduling and Job Tracking
- Accrual tracking
- Time card exceptions including absences and tardiness
