

# Payentry Benefits

## Carrier Connection Solution Guide

### What is Carrier Connection?

Carrier Connection with Payentry Benefits ensures data and any relevant updates get to insurance carriers quickly, accurately, and without manual or redundant processes.

Employee enrollment data is securely communicated from your solution to insurance carriers using digitized enrollment forms or electronic data interchange (EDI).

### Benefits of Carrier Connection

#### Paperless:

Get rid of your paper and manual benefits processes. Enable online access for both Human Resources and employees. No more searching for enrollment paperwork!

#### Automated:

Automatically deliver enrollment and benefits data to your insurance carriers for:

- Open enrollment
- Life change events
- New enrollments
- Address changes
- Terminations

#### Stop Overpayments:

Stop premium overpayments for employees terminated from coverage.

On average, one month of overpaid premiums cost \$520 for a single employee plan and \$1,462 for an employee family plan. That doesn't even include overpayments for coverage beyond health insurance!

### Types of Connectivity Provided

#### Insurance:

Securely and automatically communicate data to insurance carriers for:

- Health
- Dental
- Life
- Vision
- Short Term Disability
- Long Term Disability
- Other Supplemental Insurance (i.e. Hospitalization, Cancer, AD&D, etc.)

#### Savings Accounts:

Administrators and banks will receive enrollment and contribution data for:

- Health Savings Accounts (HSAs)
- Flexible Savings Accounts (FSAs)
- Health Reimbursement Arrangement (HRAs)
- Premium Reimbursement Accounts (PRAs)

## A Fully Customizable Carrier Connection Solution

Our Carrier Connection Solution is configurable based on your particular business needs.

As simple or complex as they may be, some examples we typically see include:

### Administrator Approval

**\*Most Popular**

- ↓ Benefits Enrollment or Change Occurs
- ↓ Administrator Reviews Data and Approves Delivery to Carriers
- ↓ Data is Automatically Sent to Carrier

**Ensure There Are No Unanticipated Changes to Benefits**

### Employee and Administrator Approval

1. Benefit Enrollment or Change Occurs
2. Missing Information is Provided and Carrier Forms are Signed
3. Administrator Reviews Data and Approves Delivery to Carriers
4. Data is Automatically Sent to Carrier

**Confirms Benefits and Employee Demographic Data is Accurate**

### No Approval

1. Benefit Enrollment or Change Occurs
2. Data is Automatically Sent to Carrier

**Allows for the Most Hands-off Approach**
